

Prepare For OHS Harmonisation With ComOps Salvus

With OH&S harmonisation just around the corner, organisations must be prepared for the new legislative environment.

At the Safety Show Sydney, ComOps will showcase Salvus, a comprehensive Safety, Risk and Claims Management solution that can help prepare organisations with the changes to processes and procedures, as well as information required to be recorded and reported.

ComOps will demonstrate how Salvus efficiently manages safety processes and mitigates risk, helps to reduce costs, comply with legislation and proactively protect and drive the business.

Designed around applicable safety, risk, quality and compliance standards, Salvus is an easy to use, completely scalable modular product that can be easily customised to the needs of any organisation. Salvus assists organisations with:

- Hazard Identification, Risk Assessments and Job Safety Analysis
- Incident Management
- Injury Management (Claims and Rehabilitation)
- Plant and Equipment Management
- Personnel Management (including Training, Medical and Health Surveillance records)
- Contractor Management
- Corrective Action Management
- Auditing and Document Management

Designed with visibility and convenience in mind, Salvus also includes a workflow module, which easily allows for identification, notification, analysis, mitigation and reporting.
