

Online OHS Training in Days With Savv-E

Online OHS compliance training will be the key feature of the Savve-E stand at The Safety Show.

An innovative compliance training suite provides courses designed for both office and in-the-field working environments.

Managers can have highly effective OHS and other key compliance training out to employees within days, with courses tailored to the organisation's needs.

Additional courses suited to the organisation can be created using the Savv-e Express award-winning tool and delivered using this flexible e-learning management system.
